

Tikigaq Corporation has Established New Subsidiaries

TIKIGAQ

TIKIGAQ FEDERAL SERVICES, LLC

By Violet Attungana, Program Manager

Tikigaq Federal Services, LLC (TFS) is a newly established company under the Tikigaq Corporation Umbrella and was formed on April 7, 2017. TFS's primary focus will be on Operation and Maintenance (O&M) and/or Base Operation Services (BOS) in the Federal arena with locations to include Alaska, Continental U.S. and Guam. The primary NAICS Code for TFS is 561210, "Facility Support Services", with a size standard of \$38.5M.

TFS provides a combination of support services that include janitorial, facility maintenance, trash disposal, security, mail routing, reception, laundry, road maintenance, snow removal, and other related facility support services. The primary office is located in Wasilla, Alaska.

AGVIO ENVIRONMENTAL SERVICES

By David Leadenham,
Division Manager

Agvio Environmental Services, LLC (AES) is a newly established company formed on April 26, 2017 that specializes in environmental remediation services in Alaska, Guam, Puerto Rico and the Continental United States.

AES is a wholly owned subsidiary with its principal office located in Wasilla, Alaska. AES is currently executing environmental remediation services on facilities in the North Slope Borough of Alaska and other environmental services under other existing contracts.

Tikigaq Federal Services, LLC *continued from page 1*

Some of TFS's clients include U.S. Army (USAG), North Slope Borough, Department of Public Works (DPW) in Alaska, and Alaska GSA. TFS performed facility and ground maintenance as well as security at the old Fort McPherson base in Atlanta, Georgia. TFS works closely with their sister company, Tikigaq Construction, and is doing subcontract work for them under the North Slope Borough PID Operations & Maintenance project in Point Hope.

TFS has been approved under the SBA All Small Mentor Protégé Program (ASMPP) with APTIM Federal Services. Tikigaq Corporation and subsidiaries have a long working relationship with APTIM through companies they have acquired (i.e., Shaw and CB&I). Under the ASMPP, a joint venture with APTIM Federal Services has been approved and signed. TFS's primary focus will be to acquire O&M and/or BOS contracts in the next 1 to 2 years. These pursuits, along with independent work outside of the ASMPP will make TFS sustainable throughout the duration of the program as well as into the future.

TFS is fortunate to have sister companies that have paved the way and are experienced with similar related types of work, knowledge on clients, are team driven professionals, that will lead to success and add to a profitable bottom line for Tikigaq.

Tikigaq subsidiary receives a National Safety Award

By Jason Rutman, Corporate HSE Manager

Over the past 17 years, Agviq LLC, a subsidiary of Tikigaq Corporation, has provided comprehensive environmental services for a wide range of clients. Whether performing support for regulatory compliance, developing and implementing remediation and reuse strategies, or seeking sound technical solutions, Agviq has continued to deliver with a strong commitment to safety.

Combined with a work philosophy and delivery approach based on stewardship, technical competence, professional experience, and responsiveness, the results of Agviq's commitment to safety become visible through their track record of performance and milestones.

To add to their awards and recognition, Agviq recently achieved 1.2 million work hours without incurring time away from work due to occupational illness or injury, and over 8.5 consecutive years without incurring an occupational injury or illness involving days away from work, both of which Agviq received recognition for in 2017 from the National Safety Council.

Congratulations to the employees and companies at Agviq for your success, a direct result of your continued efforts and focus on safety excellence.

Agviq Environmental Services, LLC *continued from page 1*

AES is led by David Leadenham, who was the General Manager for Agviq LLC for 15+ years, and is a 40 year veteran from the environmental business sector with the knowledge and management expertise for positioning AES for the future. The plan is to provide high quality services as a result of direct access to experienced personnel that will provide industry leading expertise in environmental remediation services, consistent corporate strategic awareness, and other readily available resources at locations across the country. We believe our abilities to execute multiple and simultaneous tasks will be supported as a result of our business practices and historical knowledge and strategies.

AES is supported by Kunayaq Simmonds, Administrative Support in our Wasilla office at 701 S. Knik Goose Bay Rd. Suite B. Kunayaq is a proud Tikigaq shareholder who was born and raised in Point Hope. Kunayaq can be quoted as saying "I would like to see myself grow with AES and do what I can to help our company and community prosper".

We are acquiring initial contract awards as a subcontractor which can lead to work extensions. We just started marketing in the last four months and have been awarded a prime contract just recently and have a pipeline of opportunities. Achieving our goals will be accomplished by our ability to execute safely, within budget, on time, and profitably. External business relationships with competent and reputable companies will expand our business portfolio which directly influences our ability to secure new work, grow our business, and develop our employees. We are awaiting approval from the SBA on our 8(a) Program application, and we continue to evaluate our potential in the HUBZONE program as well.

Tikigaq Corporation's Lands Department

Happy New Year from the Lands Department! We are pleased to announce that Tikigaq Corporation has hired a full time Land Planner, Andrew Tooyak, Jr. The responsibilities of the lands department are as follows:

- Fulfilling its obligations under Section 14c of the Alaska Native Claims Settlement Act (ANCSA). Section 14c requires Tikigaq Corporation to determine whether others have claims to the land it received through ANCSA and to resolve any outstanding claims. This includes researching and organizing the records related to ANCSA property and correspondence with the Bureau of Land Management and our ANCSA land specialist consultant, McClintock Land Associates.
- Other Point Hope land matters including the realignment of the Point Hope Airport project and the North Slope Borough itinerant housing project.
- Education regarding ANCSA land status issues including options related to holding land in trusts.

If you have any questions or need any assistance, please contact Andrew Tooyak. He is available during normal business hours in the Anchorage Corporate office.

ANNUAL SHAREHOLDER MEETING

Tikigaq Corporation is hosting the 2018 Annual Shareholder meeting on Saturday, March 24th at 1:30pm in Tikigaq School's gymnasium.

THANKS GIVING FOOD DRIVE

Tikigaq Corporation's 3rd annual Thanksgiving food drive was a huge success. This year we made baskets that were filled with the traditional side dishes to feed a family of 6. Our goal this year was to raise \$1,050. With the generous donations of our Tikigaq employees we exceeded this goal and raised \$2,100! We were able to help 32 families throughout the state of Alaska. In addition to their food basket, each family was given a \$30 gift card to help with other expenses. We want to thank everyone who supported this charitable cause and we look forward to next year.
