Agviq Environmental Services, LLC (AES) executes environmental programs by developing strategies that integrate regulatory, technical, financial, project delivery and controls, and risk management for delivering cost-effective solutions that meet and exceed our customers' goals and expectations. AES is a leader in performing logistically complex projects in rural and remote locations nationwide. We have a proven track record in completing projects to full customer satisfaction attributed to strong work ethic, outstanding safety record, and a commitment to superior customer services and relationships.

AES offers comprehensive services under several North American Industry Classification System (NAICS) codes.

Safety, Health, Environment

AES is committed to promoting an incident and injury-free work environment for providing the safest workplace for our employees, subcontractors, customers, and anyone who enters our project sites. Through innovative training, educational programs and informed literature, our employees and subcontractors gain the tools, knowledge and resources needed to increase awareness of the factors that influence safety, protect the environment, and reduce risk. The safety of our employees is vital to our success. We don't just talk safety. We integrate safe work practices into every task to where it becomes second nature.

Effective Leadership and Experienced Operations Personnel

AES's management, operational and program management professionals have earned degrees, and gained specific licenses, certifications, and designations provided by industry trade associations. Environmental/remediation experts include professional and capable engineers, chemists, geologists, hydrologists, environmental scientists, AutoCAD/Geographic Information Systems (GIS) specialists and environmental technicians. Mr. Matney, the General Manager, has more than 30 years' environmental and remediation experience. He has managed successful completion of more than \$300 Million in contract capacities generated from more than 250 individual projects.

- Long-term Monitoring

Commercial Customer, Adak – Pilot Study Treatment System, Adak, AK

US Army Engineering District – Well Sampling, Albuquerque, NM

NAVFAC Southwest – Long-term Monitoring, CA

Bureau of Land Management – Environmental Remediation

ANC 8(a) Contracting Advantages

Sole Source: ANC 8(a)'s may be sole-sourced Federal contracts of any size. Unlike non-tribally owned 8(a)'s, we are not subject to the \$7M competitive threshold for contracts assigned manufacturing NAICS codes or the \$4M competitive threshold for all other types of contracts per 13 CFR 124.506(b).

8(a) Eligibility: The eligibility of an 8(a) participant for a sole source or competitive 8(a) award cannot be protested per 13 C.F.R. 517(a).

5% Indian Incentive Program: DoD Contractors who offer subcontracts to ANC firms receive a rebate of 5% of the total value of the subcontract as an incentive per Section 504 of the Indian Financing Act of 1974 (25 U.S.C. § 1544).

Size Protest: Sole source awards made to 8(a) firms cannot be protested per 13 C.F.R. 124.517(b).

Past Performance: As an ANC 8(a), AES may claim the past performance of its teaming partners and key management personnel during the evaluation period of an award per FAR 15.305(a)(2)(iii).

As a sole-source 8(a) ANC provider, Agviq Environmental Services offers faster delivery times and best value. These special advantages result in a streamlined responsive contract management process.

Partnering Opportunities

As a small business, Tikigaaq recognizes the important contributions in collaborating with large, other small businesses, and socio-economic firms in promoting innovation while creating job growth and sustaining our country's economy. We believe that SBA Certified 8(a) and small and small disadvantaged businesses, like ourselves, including women-owned, veteran-owned, service-disabled veteran-owned, historically underutilized business zone (HUBZone) as well as historically black colleges and universities/minority institutions (HBCU/MI) further improve awareness and expertise to assist us in supporting our customers and their missions.
