## WHO WE ARE

Tikigaq's roots span over five decades, when the Alaska Native Land Claims Settlement Act (ANCSA) was signed into law in 1971. Embodying the values of the traditional Inupiaq people, Tikigaq businesses around the globe contribute to the lives of our 1,600 Shareholders.

Tikigaq has grown into an impressive business with 7 subsidiary companies joint ventures, operations in 31 states, with almost 400 employees globally. Each company is a wholly owned subsidiary of Tikigaq Corporation, LLC, an Alaska Native Corporation (ANC).

Tikigaq is a recognized industry leader specializing in construction and construction management, environmental and remediation services, base operations and management, facilities maintenance and comprehensive support services, logistics, and fuel distribution and retail services.

## COMPREHENSIVE CONSTRUCTION SERVICES

Tikigaq provides end-to-end innovative construction services and solutions built on many years of industry experience... working with government and commercial customers globally, reputable teaming partners, specialized subcontractors, vendors, and employing a team of subject matter experts.

From pre-construction services including demolition, environmental, constructability to construction services that include general contracting, construction/administration management, new construction, renovations, and interior buildouts under multiple contract types... including firm fixed price and task order, IDIQs.

### CONSTRUCTION

Lasting structures are built on firm foundations. At Tikigaq, we take this engineering principle into our business philosophy. By placing a major focus on cost, scheduling, and management, we keep deliverable dates reliable and forecasts accurate.

### DESIGN/BUILD

Long before the actual construction begins, we consult with architects, engineers, and surveyors to provide the entire design/build team a conceptual insight into value engineering and cost efficiencies.

## CONSTRUCTION MANAGEMENT

Our "best industry" practices, developed from lessons learned and refinements over the years, consist of managing, monitoring, and mitigating processes throughout each phase of construction.

## HEALTH, SAFETY, ENVIRONMENT

Success in safety starts at the top. Tikigaq corporate and field management personnel are committed to supporting zero accidents through clear communication of safety policies, procedures, and practices.

## LIFE CYCLE SERVICES

By adapting our integrated life-cycle approach, we can offer our customers various value-added options, to include fast tracking and enhanced commissioning.

One of the most important aspects in today's construction industry is the idea of sustainability. By taking the long view of a structure's life, our team implements sustainable concepts through all phases of the building process.

## NAICS CODES

238110	238990	811310

## ALLIANCE OF COMPANIES

Tikigaq construction companies combine a variety of capabilities for building structures and systems of exceptional long-term quality, value, and efficiency.

Each have a core focus in promoting large, small, and other socio-economic partnering arrangements. We embrace a shared purpose for creating economic benefit, stability, and growth for everyone we serve.

Tikigaq Constructors, LLC, 8(a) certification pending, is a small and disadvantaged business. Tikigaq Construction, LLC successfully graduated from the 8(a) program and is a large business. Both construction companies are Alaska Native Corporations and eligible for obtaining contracts realizing many procurement advantages.

## ANC ADVANTAGES

- Eligible to participate in U.S. Government Small Business Administration 8(a) All Small Business Program
- Exemption from competitive thresholds – no limits
- Public Law 93-638 – Contracting process by which an Indian Tribe or Native Corporation can obtain direct award contracts
- Buy-Indian Act – Indian preference program that provides a five percent bonus payment
- Privatization A-76 – Provides direct conversion to a Tribal 8(a) when negotiations indicate such action will be cost effective
